BUILD IT YOURSELF

## GEMINI

Biplanes have always held a special spot in the history of aviation. The new **Gemini** brings back that unique nostalgia! Made of the super strong ELAPOR™ foam construction, the Gemini is an extremely durable sport level aerobatic flyer.

- Low wing loading & steer able tail wheel make take-offs and landings a breeze.
- Excellent flying characteristics.
- Can be quickly dismantled for easy transport.
- Foam wings and horizontal tail have the "Rib & Fabric" look of a full scale biplane of the era.
