The MENTOR SAVE THE BALSAM TREES!

No Balsa trees were harmed in the making of the new Multiplex Mentor!

The Mentor is a Classic ".40 Size" Trainer with modern electric power constructed of Multiplex's exclusive *Elapor Foam* and offers much greater durability over other fragile balsa and film covered trainers in its class.

- Incredibly stable flying characteristics
- Easy to land with low minimum airspeeds
- Wide performance envelope and excellent power to weight ratio with recommended Brushless Power Package
- Doubles as a TOW PLANE with included Tow Release mechanism (requires 1 x micro servo)
- Rugged landing gear
- Enjoyable for beginners and advanced pilots
- Two Piece wing for easy transport
