New by Multiplex: The BLIZZARD

The Company that brought you Elapor Foam!

Pushing the envelope of Elapor Technology, the **Blizzard** creates a new class of airplane, the *Sport Liner*- a hybrid mix of the ultra expensive hotliner and affordable performance sail plane.

The **Blizzard** uses the densest Elapor foam Multiplex has ever produced to withstand vertical, cloud touching climb outs and heart stopping triple digit dives while racing across the sky in search of lift. Speed and Performance considered too expensive for the average modeler at a fraction of the cost! Simply stated; Performance and Affordability unmatched in R/C. Street Price \$149.99

- Molded from Highly Durable Elapor Foam
- Can be built as a Pure Glider or Powered Glider
- Wide performance Envelope
- Aileron Servos automatically connect when wing is attached to Fuselage
- 8.9% airfoil
